Fasting Physician a Cannibal.

Before May 31.—Dinner, wheat cakes, roast beef, potatoes, pudding, supper, soup, veal or pork chops, potatoes, eggs, fruit.

After May 31.—Dinner, quart of bottled spring water; supper quart of bottled spring water.

Result.—Loses 19 3-4 pounds, but retains strength and possesses better health.

"Cannibal, living on my own system," is the way Dr. I. J. Earles, of Belleville, Ill., described himself yesterday on beginning the nineteenth day of his fast.

Imagination more than any thing else is keeping the doctor alive, according to his own statement. He said that through strong will power he convinces himself that he is not hungry, despite the fact that he has

subsisted on water for the last nine-teen days.

"I feel as if I had partaken of a substantial repast," said Dr. Earles, taking a small quantity of spring water and smacking his lips. He drinks two quarts of water each day. Thinking that the doctor's imagination concerning the food question might fail under a test, the visitor asked if he still possessed his full strength, whereupon the doctor seized an office attendant weighing 163 pounds and lifted him easily.

Dr. Earles began his fast May 31. He then weighed 192 pounds. Yesterday he weighed 172 1-2 pounds, and said that he possessed no craving for food. For the first five days he lost two pounds every twenty-four hours. After that he lost about a pound daily. The loss decreases every day, he says.

Twelve years ago, according to the doctor he weighed 235 pounds and suffered with heart trouble and indigestion. He concluded fasting would cure the ailments, and carried out the idea by stages, fasting a day, two days, three days and then a week. It was not until this May that he determined to see how long he could do without food.

Dr. Earles declared yesterday that his fasts did him "a world of good." He is a good trenchman, ordinarily, and fond of meats and vegetables, but for many years he has done without breakfast.

The doctor believes that two meals a day are sufficient for anyone, hard laborers excepted. Grain, he says, is the best kind of nourishment for the brain workers.

Hogs get the most nourishing part of grain said he. When wheat is taken to the mill too much of the outer crust is removed. People want nice white flour, which eventually leads them to nice white tomb stones.

"People eat too much. The large number of deaths among infants is due to overeating. The same applies to many diseases. I have not eaten a thing for nineteen days and I never felt healthier in my life. I sleep better than before, don't dream and wake refreshed.

"Fasting and starving are entirely different. The first is a matter of will power, while the latter is enforced. The only part of myself that needs nourishment is my nervous system. This will be fed and allow me to live as long as there is an ounce of fat on my body.

"Experiments with animal show that death does not occur until 91 per cent of fat and 30 per cent of muscles have been consumed by the nervous system. As I have a large quantity of fat my nervous system will be fed and my brain kept clear, because the brain receives its nourishment from the nervous system." Doctor Earles is not only fasting to preserve his health; he is experimenting and has set no specific time to resume eating. He is 47 years old.

people who know how to take care of themselves—the majority do not. The liver is a most important organ in the body. Herbine will keep it in condition. V. C. It is as good for children as it is for grown-up people, and I recommend it. It is fine for La Grippe." Sold by J. H. Orme.

Duck And Whip Wife Beater.

Michigan City, Ind., June 19.—Joseph Geister, a chronic wife beater and police court character, was set upon late last night by a mob of 300 neighbors. Geister had struck his wife with a brick. Angry neighbors beat him and immersed him in a muddy creek until he was nearly strangled. The crowd then stripped him and held him while women lashed him with whips until the blood trickled down. He was then led before his wife and made to beg her forgiveness. After this a policeman was called to take him into custody. Geister limped into court today and was sent to jail.

Will Offer Compromise

Attorney John K. Hendrix left today for Princeton to confer with officials of the Imperial Tobacco company, against which firm his clients got a judgment last week for \$13,000. The firm offers to compromise by paying \$7,000, in cash and turning over the lots to the plaintiffs. The plaintiffs had sold the tobacco warehouse to the tobacco company and it was burned down by "night riders" before it was paid for. They were represented by Attorneys Hendrix, Miller and Marble, of this city. —News Democrat.

Nervous, Worn-Out

If you are in this condition, your nerve force is weak—the power is giving out, the organs of your body have "slowed up," and do their work imperfectly. This failure to do the work required, clogs the system and brings distress and disease. When the nerves are weak the heart is unable to force the life-giving blood through your veins; the stomach fails to digest food; the kidneys lack power to filter impurities from the blood, and the poisonous waste remains in the system to breed disease. Nerve energy must be restored. Dr. Miles' Nervine will do it, because it strengthens the nerves; it is a nerve medicine and tonic, that rebuilds the entire nervous system.

"Several years ago I was all broken down. I was nervous, worn-out, could not sleep, and was in constant pain. I doctored for months, and finally the doctor said he could do nothing for me. I began taking Dr. Miles' Nervine, and used altogether eight bottles, and I became strong and healthy, and now weigh 170 pounds."

108 Ellsworth Ave., Allegheny, Pa. Dr. Miles' Nervine is sold by your druggist, who will guarantee that the first bottle will benefit. If it fails, he will refund your money.

Situations Guaranteed.

We do not guarantee situations to prospective students in order to get their patronage. Schools of merit do not resort to such dishonest practices. Fake schools "guarantee" situations in order to secure students, because they have no other inducements to offer. Our work is so thorough that a guarantee is superfluous. Business men are so eager to get competent help here that a large per cent of our students take positions before they graduate. See us before making arrangements for your business and shorthand education at some inferior, fake school. We will take pleasure in telling you all about the loopholes in the "position guarantees" of dishonest schools. Catalogue free.
